

AKBOPE BAKYTKELDY

Ақбөпе Бақыткелді

GRAPHIC & DIGITAL DESIGNER

AVAILABLE FOR FREELANCE, PART-TIME & REMOTE WORK

PROFILE

Astana-based graphic and digital designer and Software Engineering student at Astana IT University. I create visual identities, campaigns and digital experiences, combining expressive typography and colour with an understanding of how working web products are built.

EDUCATION

Astana IT University

Software Engineering student

Astana, Kazakhstan

Ideas, made real.

Graphic design, visual direction and working digital products.

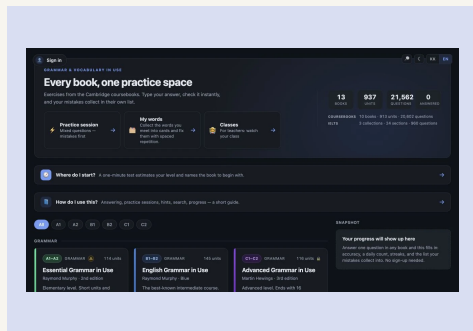

Mountain

Product design / AI-assisted development

A calm English-reading product with a book catalogue, personal library, vocabulary and reading progress.

[View live project →](#)

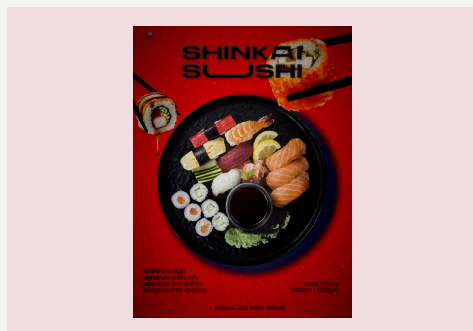

Agylishyn

Education / Product design / AI-assisted development

A bilingual English-practice platform for Kazakh-speaking learners, with exercises, mistake review and progress views.

Sushi Social Club

Concept campaign / Art direction

Nine social designs for an imaginary sushi club, connected through deep red, close food crops and expressive typography.

Claude Magazine

Concept editorial series / Art direction

Eight editorial posts exploring a warmer visual language for AI.
Independent work; not an Anthropic commission.
